

2018 SEQUOIA

TOYOTA

ROUGH IT, COMFORTABLY

SEQUOIA IS DESIGNED TO IMPRESS.

The redesigned 2018 Sequoia commands attention with a striking new grille, bumper, LED Daytime Running Lights, and Smoked Tail Lamps. Inside you'll find premium upgrades like chrome accents on the dash and high contrast stitching on the seats to create an exceptional driving experience. The cabin seats up to eight, depending on the trim level, and includes a sophisticated Three-Zone Climate Control System for added comfort for front and rear passengers. Whether you're searching for your next destination or keeping your passengers entertained, Sequoia's high-tech features conveniently offer something for everyone. If you're hauling more gear than people, the second- and third-row seats fold flat to reveal 3,400 litres (120.1 cu.ft.) of cargo space. And the split-fold seat design lets you choose how to stow your cargo: upright or flat. Whatever adventure your lifestyle has in store, Sequoia comes equipped to handle it all.

- AVAILABLE FEATURES
- Display Audio System⁴ w/Navigation⁵
 - Backup Camera
 - Rear Seat Blu-ray Entertainment System
 - Power Rear Liftgate & Window
 - Three-Zone Automatic Climate Control
 - Heated Captain Front & Second Row Seats
 - Second Row Centre Console
 - Power Flat Folding 3rd Row Bench Seat

ALL-NEW TRD SPORT PACKAGE The all-new Sequoia TRD Sport Package offers extra style and capability to your drive with TRD Sport-Tuned Bilstein Front & Rear Shock Absorbers, TRD Front and Rear Sway Bars, 20" Black Alloy Wheels, Front & Rear Clearance Sonars, TRD Shift Knob, TRD Door Sill Protectors and TRD badges.

THE ROAD WILL CHANGE,
BUT THE DRIVE NEVER WILL.

Sequoia offers the toughness of a truck in the body of a versatile and sophisticated SUV, giving you the freedom to experience whatever the next turn has in store. It features a powerful 5.7 litre i-FORCE V8 engine with independent double wishbone front and rear suspension. It allows both responsive handling and a smooth ride, whether you're tackling the unpredictable urban landscape or unforgiving rural trails. And thanks to an integrated towing hitch and Trailer-Sway Control, it can haul up to 3,175 kg (7,000 lb.) with confidence. If that wasn't enough, over 85% of Toyota vehicles sold in Canada in the past 20 years are still on the road today.¹⁵ Built to last. Trusted worldwide. The Sequoia will let you travel more roads than you ever thought possible, leading to greater possibilities tomorrow.

REDEFINING THE PHRASE
“UP FOR ANYTHING”

PEACE OF MIND Sequoia includes a host of advanced features that help give you the confidence to face any challenge. For instance, when changing lanes, the standard Blind Spot Monitor⁹ detects vehicles entering a blind spot on either side, then signals an alert if you attempt to change lanes. There are also available Front and Rear Parking Assist Sonars that use sensors to alert you of the position of objects and their proximity to the vehicle.

Platinum shown in Blizzard Pearl.

WE ALL DESERVE TO
ARRIVE SAFE

At Toyota, we believe that no matter what the destination, everyone deserves to arrive safely. That's why we created Toyota Safety Sense™ (TSS)¹⁰ – an advanced suite of innovative safety features designed to help protect drivers, passengers, pedestrians (TSS-P only) and people in other vehicles from harm. TSS is comprised of active features such as Pre-Collision System (PCS),¹¹ Lane Departure Alert (LDA)¹² and Automatic High Beams (AHB)¹⁴ and are standard on virtually all models. TSS represents the latest milestone in our long history of creating advancements and innovations in safety that have helped prevent crashes and protect people.

STANDARD TOYOTA SAFETY SENSE™ (TSS-P)¹⁰

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION¹¹ Provides collision avoidance or collision mitigation support in speed ranges where frontal collisions are likely to occur. In certain conditions, the Pre-Collision System with Pedestrian Detection (PCS w/PD) may also help to detect pedestrians and help prevent or mitigate a collision.

AUTOMATIC HIGH BEAMS¹⁴ Designed to detect oncoming and preceding vehicles' lights and depending upon the circumstances, Automatic High Beams (AHB) can switch between high and low beams for you.

DYNAMIC RADAR CRUISE CONTROL¹³ Using forward sensing radar technology, the system can automatically adjust vehicle speed to help maintain a preset following distance between you and the vehicle directly in front of you.

LANE DEPARTURE ALERT¹² Alerts you if you start to drift out of your lane when visible lane markings are detected.

STANDARD FEATURES	
9 Airbags ¹	Anchor Points For Child Restraint Seats
Toyota Star Safety System™	Direct Tire Pressure Monitoring System

DISCLAIMERS

(1) All Toyota vehicles shown in this brochure have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Toyota Dealer. (2) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (3) Do not use the hands-free phone system if it will distract you. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends upon software, coverage and carrier. (4) Driving while distracted can result in loss of vehicle control. Always drive safely, obey traffic laws and focus on the road and traffic conditions while driving. (5) Availability and accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway; updates may be available at an additional cost from your Dealer. (6) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. (7) Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. (8) Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions, and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. (9) Do not rely exclusively on the Blind Spot Monitor System and Rear Cross-Traffic Alert System. They are not collision-avoidance systems or substitutes for safe and attentive driving. (10) Drivers should always be responsible for their own safe driving. Please always pay attention to your surroundings and drive safely. Depending on the conditions of roads, vehicles, weather, etc., the TSS systems may not work as intended. (11) The TSS Pre-Collision System is designed to help avoid or reduce the impact speed and damage in certain frontal collisions only. The Pedestrian Detection system is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. (12) Lane Departure Alert is designed to read lane markers under certain conditions and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. (13) Dynamic Radar Cruise Control is designed to assist the driver and is not a collision-avoidance system or a substitute for safe and attentive driving practices. System effectiveness depends on many factors such as weather, traffic and road conditions. (14) Automatic High Beam system operates at speeds above approximately 34 km/h. Factors such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn it off. (15) Based on IHS Automotive Canadian Vehicles in Operation and New Registrations MY 1997-2016 as of June 30, 2016. Actual longevity of any vehicle will vary based upon operating conditions. (16) ®Aeroplan and the Aeroplan logo are registered trademarks of Aimia Canada Inc.

Details on the above features can be found in the Owner's Manual or contact your local Toyota Dealer.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website toyota.ca – or your Toyota Dealer is your best source for up-to-date information.

NEW VEHICLE WARRANTY SUMMARY

– No deductibles – no transfer fees

COMPREHENSIVE COVERAGE

3 YEARS OR 60,000 KM.
This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

POWERTRAIN COMPONENTS

5 YEARS OR 100,000 KM.
This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

MAJOR EMISSION CONTROL COMPONENTS

8 YEARS OR 130,000 KM.
This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

CORROSION PERFORATION

5 YEARS/UNLIMITED DISTANCE.
This warranty covers any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

GENUINE ACCESSORIES

Toyota's Genuine Accessories are custom designed and built to fit your specific Toyota vehicle and are backed by a Toyota Warranty. For a complete list of vehicle-specific accessories, visit accessories.toyota.ca or your local Dealer.
