THE 2021 HIGHLANDER

Driven to do it all.

Designed for all that you are.

There's more to you than meets the eye. The same can be said of the 2021 Toyota Highlander and Highlander Hybrid. From its striking, fluid exterior styling, to its comfort and handling, to the host of intuitive tech that you'll find at your fingertips, the Highlander goes a bit deeper than your standard SUV. Couple that with gas and hybrid options that offer extraordinary fuel efficiency, power, capability, and safety features – and we're sure you'll agree that there is nothing on the road quite like the Highlander and Highlander Hybrid.

[Click to Learn More](#)

EXTERIOR DESIGN

Take the lead, in style.

A dynamic design that will turn heads.

From the moment you see it, you'll realize the Highlander is something special. Its sophisticated shape and powerful stance create a striking silhouette. And those modern lines are perfectly complemented with expanded fender flares, available 20" alloy wheels, and a dynamic grille. Available Platinum trim and premium LED headlamps complete the picture. And all of these design features aren't just for show; the Highlander's highly functional design promises improved aerodynamic efficiency, reducing wind noise while enhancing vehicle stability.

2021 HIGHLANDER

North London Toyota
519-451-3880

INTERIOR STYLING

Looks as impressive as the places you'll discover.

It's what's inside that counts.

As stunning as the outside of the Highlander is, it's what's inside that will truly impress you. In fact, it's all about you. You'll feel the premium, refined style that elevates every ride. Highlander offers modern luxury touches such as soft, padded surfaces with impressive stitching, available ambient LED lighting, and inset steering wheel controls. The spacious cabin comfortably seats up to 7 or 8 passengers, with available heated leather captain's seats. And sound-damping and soundproofing materials are optimized throughout the vehicle to minimize noise. Taken together, it adds up to a driving experience that is sure to surprise you.

[Click to Learn More](#)

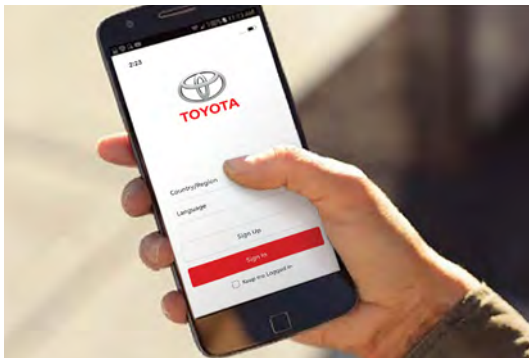

TECHNOLOGY

Putting you at the centre of everything.

INTUITIVE TECH

Highlander offers a host of available tech-focused features that include a 8-inch touchscreen display, 11 JBL® speakers with Clari-Fi™, Apple CarPlay™¹ and Android Auto™¹ compatibility, a Panoramic View Monitor, and a Head-Up display.

CONNECTED SERVICES BY TOYOTA¹

Staying connected has never been easier with a suite of available connectivity features including Remote Connect, Safety Connect®, Service Connect, and Destination Assist to help enhance your driving experience.

7-INCH TFT MULTI-INFORMATION DISPLAY

Get all the vital info you need at a glance with Highlander's available 7-in. TFT Multi-Information Display, which can be customized to show you how much fuel you have left, check your current kms, get turn-by-turn directions, and more – all on one display.

Qi WIRELESS CHARGING

Simply place your Qi compatible device on the available Qi wireless charger for a quick and easy charge.

PERFORMANCE

Make a powerful impression.

Performance to take you wherever you want to go.

No matter where you're travelling, nothing will take you there like the Highlander. It offers two powertrain options that deliver horsepower, torque, outstanding fuel efficiency, and exceptional driving responsiveness and handling. And the available Multi-Terrain Select allows you to maximize traction when driving through inclement weather or road conditions. With performance also comes power. Highlander features impressive towing capabilities that can haul 2,268 kg/5,000 lb (or 1,587 kg/3,500 lb for Highlander Hybrid), which is enough power to pull a camping trailer with ease. With features like these and many more, the Highlander lets you make the most out of every drive.

[Click to Learn More](#)

PERFORMANCE

Strength and power.

DYNAMIC TORQUE-VECTORING AWD WITH REAR DRIVELINE DISCONNECT

Enjoy an upgrade in performance that is paired with impressive fuel efficiency. Gas models offer available Dynamic Torque Vectoring All Wheel Drive that improves handling by sending up to 50% of the power to the rear and then distributes more power to the wheel that needs it. To boost fuel efficiency, Rear Driveline Disconnect will stop sending power to the rear when it isn't necessary.

DRIVING MODES

Highlander Hybrid offers selectable driving modes that let you choose the vehicle's performance personality. SPORT mode unlocks boost from the hybrid system for improved acceleration response. ECO mode gets maximum efficiency from the fuel and battery. NORMAL mode is ideal for everyday driving, while EV mode allows electric-only driving at low speeds for short distances.

HYBRID CAPABILITIES

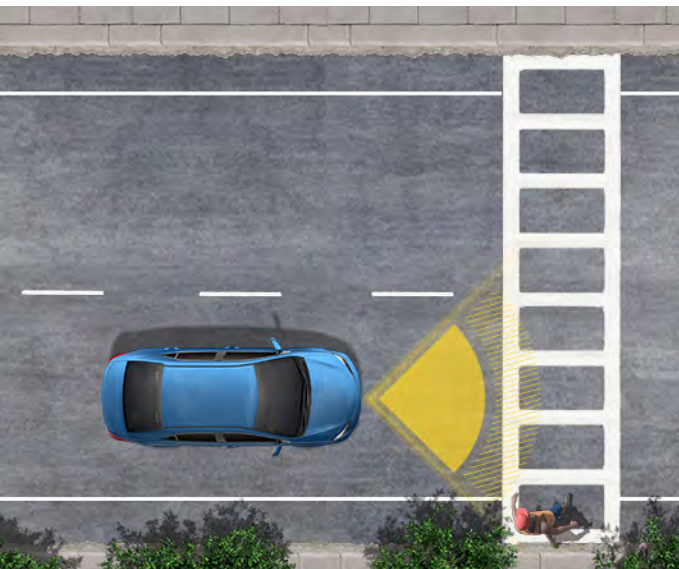

The Toyota Hybrid System battery can hold a charge longer for greater distances to give you outstanding fuel efficiency. And the available AWD employs a separate rear-mounted electric motor to power the rear wheels, distributing more power there when needed. This means enhanced cornering agility by helping to reduce understeer, and increased rear-wheel torque over rough or slippery surfaces.

SAFETY

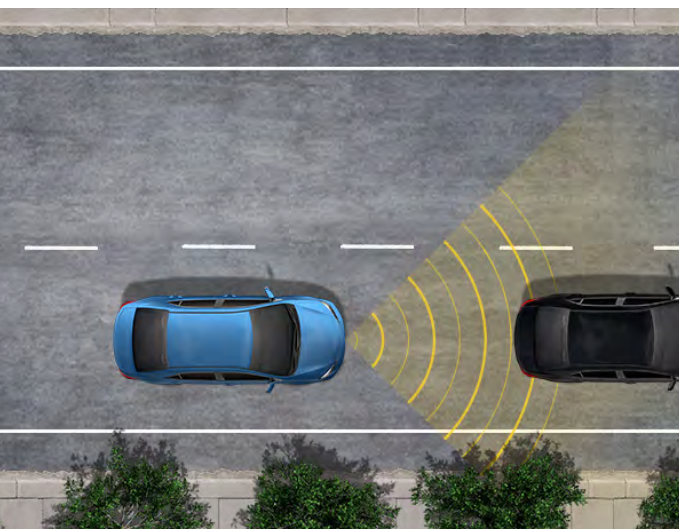

Toyota Safety Sense™

No matter what roads you travel, Toyota Safety Sense™² 2.5+ is always there to help keep you as safe as possible. It's an advanced suite of innovative safety features that comes standard on the 2021 Highlander, and it is designed to help protect drivers, passengers, pedestrians, and people in other vehicles from harm.

PRE-COLLISION SYSTEM WITH PEDESTRIAN & BICYCLE DETECTION³

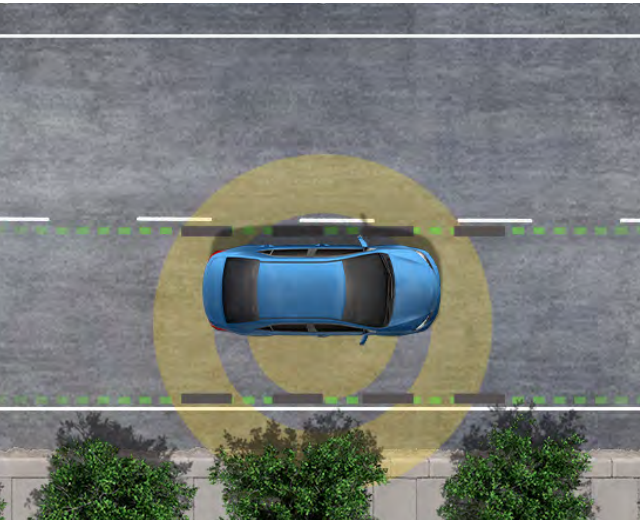

Provides collision avoidance or collision mitigation support in speed ranges where frontal collisions are likely to occur. The latest system has enhanced low-light capabilities to help detect pedestrians at night. In certain conditions during the day, the Pre-Collision System with Pedestrian and Bicycle Detection may also help to detect leading and crossing cyclists and help prevent or mitigate a collision.

FULL-SPEED RANGE DYNAMIC RADAR CRUISE CONTROL⁴

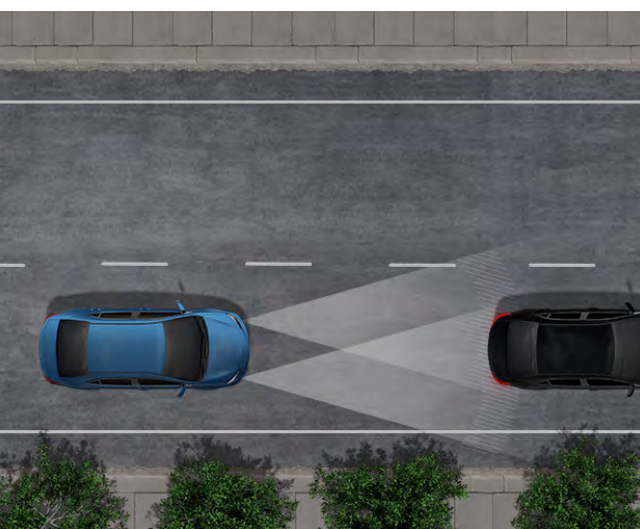

Dynamic Radar Cruise Control (DRCC) uses vehicle-to-vehicle distance control, which adjusts your speed, to help you maintain a preset distance from vehicles ahead of you that are driving at a slower speed. DRCC uses a front-grille-mounted radar and an in-vehicle camera designed to detect vehicles and their distance.

STANDARD TOYOTA SAFETY SENSE™

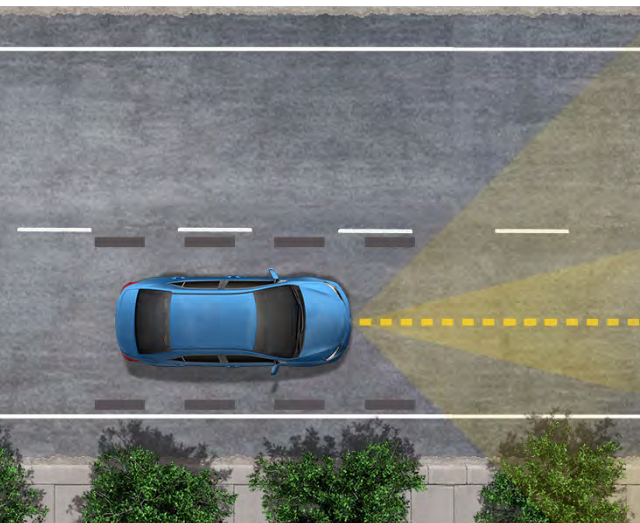

LANE DEPARTURE ALERT WITH STEERING ASSIST⁵ & ROAD EDGE DETECTION

Alerts you if you start to drift out of your lane when visible lane markings or the road edge is detected. The Steering Assist function may also provide small corrective steering inputs.

AUTOMATIC HIGH BEAMS⁶

Designed to detect oncoming and preceding vehicles' lights and depending upon the circumstances, Automatic High Beams can switch between high and low beams for you.

LANE TRACING ASSIST⁷

Provides steering support to help the driver keep the vehicle centred in its lane when Dynamic Radar Cruise Control is in operation.

— NEW VEHICLE WARRANTY COVERAGE —

To protect your investment and provide additional peace of mind, every new Toyota vehicle includes a comprehensive Warranty and Roadside Assistance package.

COMPREHENSIVE COVERAGE

This warranty includes 24-hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

3 YEARS

OR

60,000 km

POWERTRAIN COMPONENTS

This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

5 YEARS

OR

100,000 km

MAJOR EMISSION CONTROL COMPONENTS

This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

8 YEARS

OR

160,000 km

CORROSION PERFORATION

This warranty covers any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

5 YEARS

OR

UNLIMITED DISTANCE

HYBRID BATTERY

This warranty covers repairs to the hybrid battery that is defective in material or workmanship under normal use and maintenance.

10 YEARS

OR

240,000 km

HYBRID-RELATED COMPONENTS¹⁰

This warranty covers repairs to hybrid-related components outside of the hybrid battery that are defective in material or workmanship under normal use and maintenance.

8 YEARS

OR

160,000 km

— D I S C L A I M E R S —

(1) Driving while distracted can result in loss of vehicle control. Some features may be locked out while the vehicle is in gear. To reduce risk of accident while driving, exercise care when using the systems (even with the voice commands) and obey all local laws concerning use of the systems while driving (as some laws prohibit the use of electronic devices while operating a vehicle). Once the Connected Services by Toyota trial subscription expires, paid enrollment is required. Apple CarPlay, iPhone and Siri are trademarks of Apple Inc. Android Auto and Google Assistant are trademarks of Google LLC. A compatible customer phone pairing is required and customers are responsible for all data charges. (2) Drivers should always be responsible for their own safe driving. Please always pay attention to your surroundings and drive safely. Depending on the conditions of roads, vehicles, weather, etc., the TSS systems may not work as intended. (3) The TSS Pre-Collision System is designed to help avoid or reduce the impact speed and damage in certain frontal collisions only. The Pedestrian and Bicycle Detection system is designed to detect a pedestrian and bicyclist ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians and bicyclists, driver input and weather, light and road conditions. (4) Dynamic Radar Cruise Control is designed to assist the driver and is not a collision-avoidance system or a substitute for safe and attentive driving practices. System effectiveness depends on many factors such as weather, traffic and road conditions. (5) Lane Departure Alert with Steering Assist is designed to read lane markers under certain conditions and provide visual and audible alerts and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. (6) Automatic High Beam system operates at speeds above approximately 34 km/h. Factors such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn it off. (7) Lane Tracing (Trace) Assist (LTA) is designed to read visible lane markers and detect other vehicles under certain conditions. When potential lane departure is detected, LTA provides a visual warning and either an audible alert or vibration in the steering wheel and can apply a slight steering force. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. (8) Not all exterior and interior colour options are available for every model. (9) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (10) Includes: Battery Control Module, Hybrid Control Module, and Inverter with Converter.

Details on the above features can be found in the Owner's Manual or contact your local Toyota Dealer.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of publication. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website **toyota.ca** – or your Toyota Dealer is your best source for up-to-date information.
