THE 2021 TUNDRA

Fully loaded, loaded fully.

Uncompromising engineering.

At Toyota, we think getting a truck should mean getting it all. We don't think that the capacity to get the work done should come at the expense of the space you need to raise a family. We know that an aggressive and commanding exterior doesn't have to be sacrificed for a premium and sophisticated interior. And we're certain that cutting-edge technology doesn't have to take a back seat to practical affordability. Over 80 years of innovation has gone into the 2021 Toyota Tundra - a half-ton of meticulously engineered heavy metal that proves a full-size pickup truck can have it all.

[Click to Learn More](#)

EXTERIOR DESIGN

Refined around the edges.

Bold can be beautiful. The 2021 Tundra is proof of that.

Tundra's chiselled exterior was designed to get the job done and look good doing it. Available in 4x4 Double Cab and 4x4 CrewMax options, this full-sized pickup offers a variety of unique packages to enhance your Tundra's appearance and capabilities. Make a commanding presence with the available Trail and 1794 Edition packages that boast premium accents and upscale styling. For those craving more excitement, the TRD packages offer performance upgrades and sporty design features that will not only get you noticed but also make quick work of any street, road, or dirt-covered path Canada has to offer.

INTERIOR STYLING

Luxury and tech on a large scale.

The comfortable side of rugged.

As striking as the 2021 Tundra is on the outside, the true reward comes once you are seated inside. Tundra perfectly blends functionality and comfort, with a spacious cabin that gives you and your crew plenty of room to stretch out, and premium materials and textures to create a distinctively upscale feel. Best of all, Tundra comes equipped with a host of intuitive tech like Apple CarPlay™¹ and Android Auto™¹ compatibility, 4.2" TFT Multi-Information Display, Backup Camera, and available Blind Spot Monitor with Rear Cross-Traffic Alert, and Clearance and Backup Sensors.

[Click to Learn More](#)

INGENIOUS CAPABILITY

Ready for anything and everything.

A truck that works just as hard as you do.

For life on the go, Tundra has the capability to handle it all – and more. The spacious cabin includes a number of handy storage options, including available Split Fold-Up Rear Seats, Deep Armrest Storage, and a Large Glove Box. Outside, the tough exterior bed makes loading, securing, and hauling your gear that much easier with available Tie-Down Cleats, available Deck Rail System, and Easy Lower and Lift Tailgate.

TOWING & PAYLOAD

The proof is the power.

Great power, great efficiency.

The powerful i-FORCE 5.7L V8 engine features Dual Independent Variable Valve Timing with intelligence to optimize engine breathing for maximum power and efficiency. The Acoustic Control Induction System automatically adjusts intake runner length for optimal torque and performance. And to help handle the remarkable torque, we equipped it with a 6-speed automatic transmission, two-piece drive shaft, and massive 10.5-in. ring gear. So whether you're towing, hauling, or just heading home, you can rest assured that Tundra carries a payload of capability.

[Click to Learn More](#)

The right frame. The right frame of mind.

TOW/HAUL MODE

The available TOW/HAUL mode expands the use of lower gear ranges, helping prevent the transmission from awkwardly shifting or “hunting” for the right gear. Particularly useful while towing or hauling a heavy load, the system enhances acceleration, downhill engine braking, pulling power, and cruising comfort.

TRAPEZOIDAL FRAME SECTION

The trapezoidal rear section of Tundra's TripleTech™ frame allows the rear leaf springs to be positioned toe-out, where the front is mounted farther out than the rear. The result: The trapezoidal rear frame section and the toe-out rear leaf springs combined deliver superior lateral stability when cornering and especially while towing heavy loads.

AUTOMATIC LIMITED-SLIP DIFFERENTIAL

Auto LSD uses the rear brakes to simulate the action of a mechanical limited-slip differential and is much easier to maintain. With Auto LSD, Tundra automatically applies brake pressure to the powered wheel with limited-to-no traction without restricting engine power. This helps increase resistance at the slipping wheel, which in turn helps feed power to the wheel with grip.

POWERFUL BIG BRAKES

Tundra is equipped with enormous 13.9-in. front brake rotors and 4-piston calipers. When towing, Tundra's big rotors can help provide the confidence that when you apply the brakes, the Tundra – and your trailer – will come safely to a stop.

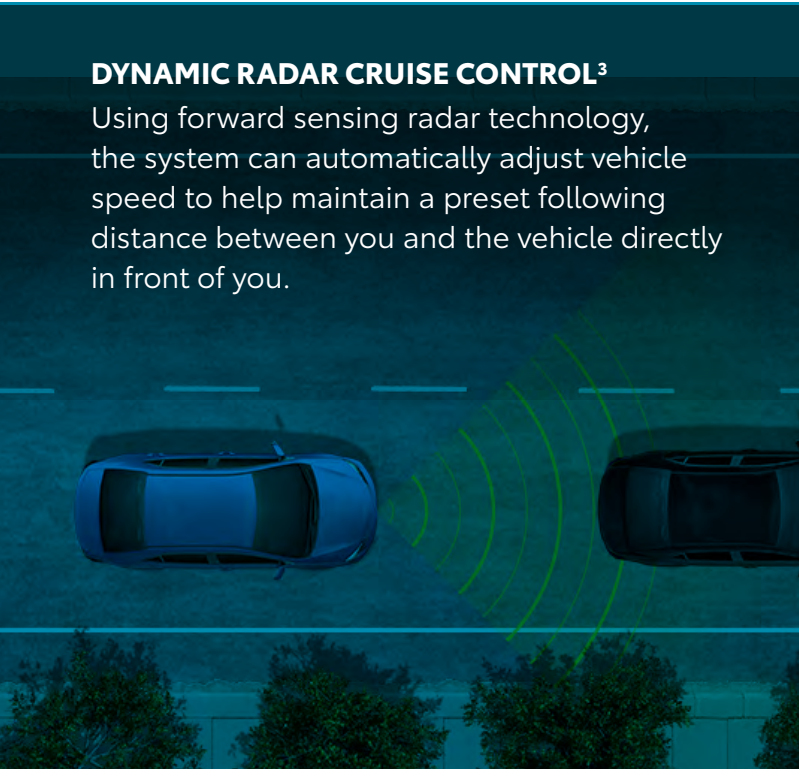

Toyota Safety Sense™

No matter what roads you travel, Toyota Safety Sense™² (TSS-P) is always there to help keep you as safe as possible. It's an advanced suite of innovative safety features that comes standard on the 2021 Tundra, and it is designed to help protect drivers, passengers, pedestrians, and people in other vehicles from harm.

DYNAMIC RADAR CRUISE CONTROL³

Using forward sensing radar technology, the system can automatically adjust vehicle speed to help maintain a preset following distance between you and the vehicle directly in front of you.

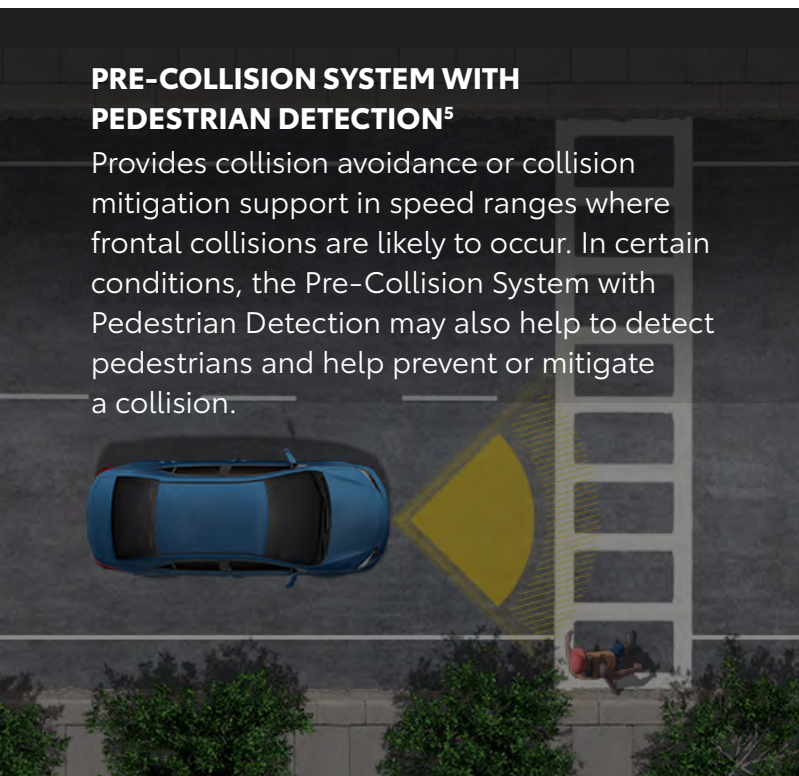

LANE DEPARTURE ALERT WITH STEERING ASSIST⁴

Alerts you if you start to drift out of your lane when visible lane markings are detected. The Steering Assist function may also provide small corrective steering inputs.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION⁵

Provides collision avoidance or collision mitigation support in speed ranges where frontal collisions are likely to occur. In certain conditions, the Pre-Collision System with Pedestrian Detection may also help to detect pedestrians and help prevent or mitigate a collision.

AUTOMATIC HIGH BEAMS⁶

Designed to detect oncoming and preceding vehicles' lights and depending upon the circumstances, Automatic High Beams can switch between high and low beams for you.

DRIVETRAIN

- 5.7 Litre, i-FORCE V8 Engine with 381 hp @ 5600 rpm & 401 lb.ft. of Torque @ 3600 rpm
- Dual Variable Valve Timing with Intelligence, Sequential Multiport Electronic Fuel Injection
- Crank Hold Electronic Starter Control, Tier 2 Bin 5 Emissions Rating, Hood Struts, Stainless Steel Exhaust System, Heavy Duty Battery, Starter, Alternator & Heater, TOW/HAUL Mode, Console Mounted Shift Lever, Lock Up Torque Converter, Transmission Cooler, Automatic Transmission Fluid Warmer
- One-Touch 4WD with Electronically Controlled Transfer Case, Automatic Limited-Slip Differential, Active Traction Control
- 6-Speed, Automatic, Super Electronically Controlled Transmission with intelligence, Column Mounted Shift Lever
- Independent Front Coil Spring High-Mounted Suspension, Double-Wishbone with Stabilizer Bar & Gas Shock Absorbers, Heavy Duty Multi-Leaf Spring Rear Suspension & Bias-Mounted Gas Shock Absorbers
- Power-Assisted, 4-Wheel Ventilated Disc Brakes
- Combined City & Highway Rating 16.3 L/100 km 17 mpg⁸

ENTERTAINMENT & CONNECTIVITY

- Audio Plus¹ – includes Safety Connect[®] (1 year trial)
- 8" Touch Screen, 8-Speakers
- Apple CarPlay^{™1} Compatibility
- Android Auto^{™1} Compatibility
- SiriusXM[®] Satellite Radio with 3-month All-Access trial
- USB Input Ports, Auxiliary Input Jack, Bluetooth[®]
- 4.2" TFT Multi-Information Display, Backup Camera

INTERIOR

- Fabric Seat Material
- Heated Front Bucket Seats
- Power 8-Way Adjustable Driver's Seat with Lumbar Support, Manual 4-Way Adjustable Front Passenger Seat
- 60/40 Split Rear Bench Seat with under-Seat Storage
- Illuminated Vanity Mirrors
- Silver Dash Trim, Chrome Vent Trim
- Foot Well Lighting
- Power Door Locks, Power Windows with Driver Side Auto Down

EXTERIOR

- 6.5-Foot Cargo Bed (SR5 Plus), 8.1-Foot Cargo Bed (SR5 Long Bed)
- Dual Heated, Power-Adjustable Foldable Mirrors, Chrome Grille Surround, Black Outside Mirrors
- Rear Privacy Glass with Manual Slide
- Chrome Steel Front & Rear Bumper Ends
- Towing Hitch Receiver, 4/7-Pin Connector, Trailer Brake Controller
- Easy Lower & Lift Tailgate, Removable Locking Tailgate
- Bed Rail System, Tie-Down Cleats (Set of 4)
- LED Daytime Running Lights, Manual Headlamp Levelling System
- 18" Aluminum Alloy Wheels & P275/65R18 All-Season Tires

SAFETY

- Toyota Safety Sense[™] (TSS-P)
- Star Safety System[™]
- 8 Airbags

UNLIMITED
DISTANCE

— D I S C L A I M E R S —

(1) Driving while distracted can result in loss of vehicle control. Some features may be locked out while the vehicle is in gear. To reduce risk of accident while driving, exercise care when using the systems (even with the voice commands) and obey all local laws concerning use of the systems while driving (as some laws prohibit the use of electronic devices while operating a vehicle). Once the Connected Services by Toyota trial subscription expires, paid enrollment is required. Apple CarPlay, iPhone and Siri are trademarks of Apple Inc. Android Auto and Google Assistant are trademarks of Google LLC. A compatible customer phone pairing is required and customers are responsible for all data charges. (2) Drivers should always be responsible for their own safe driving. Please always pay attention to your surroundings and drive safely. Depending on the conditions of roads, vehicles, weather, etc., the TSS systems may not work as intended. (3) Dynamic Radar Cruise Control is designed to assist the driver and is not a collision-avoidance system or a substitute for safe and attentive driving practices. System effectiveness depends on many factors such as weather, traffic and road conditions. (4) Lane Departure Alert with Steering Assist is designed to read lane markers under certain conditions and provide visual and audible alerts and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. (5) The TSS Pre-Collision System is designed to help avoid or reduce the impact speed and damage in certain frontal collisions only. The Pedestrian Detection system is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. (6) Automatic High Beam system operates at speeds above approximately 34 km/h. Factors such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn it off. (7) Not all exterior and interior colour options are available for every model. (8) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors.

Details on the above features can be found in the Owner's Manual or contact your local Toyota Dealer.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of publication. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website **toyota.ca** – or your Toyota Dealer is your best source for up-to-date information.
