

2020 TUNDRA

TOYOTA

AT TOYOTA, WE'RE MORE THAN JUST A CAR COMPANY

WE'RE A PARTNER IN THE JOURNEY TO LIVE YOUR MOST FULFILLING LIFE.

We give you the tools you need to achieve your full potential by designing our vehicles with purpose. To be as dynamic as the life you've always envisioned yourself living.

And we don't stop at meticulously designed, quality vehicles. We're pioneering alternative fuels, improving human movement, and creating meaningful community partnerships, like the one we have with our Olympic and Paralympic athletes. These initiatives demonstrate our determination to give everyone the ability to move freely through a world with constantly evolving mobility challenges, enriching that world in the process.

Alone, just a car. Together, so much more.

FULLY LOADED, LOADED FULLY

UNCOMPROMISING ENGINEERING.

At Toyota, we think getting a truck should mean getting it all. We don't think that the capacity to get the work done should come at the expense of the space you need to raise a family. We know that an aggressive and commanding exterior doesn't have to be sacrificed for a premium and sophisticated interior. And we're certain that cutting-edge technology doesn't have to take a back seat to practical affordability. Enter the 2020 Toyota Tundra, a half-ton of meticulously engineered heavy metal that proves a full-size pickup truck can have it all.

A FULL-SIZE TRUCK THAT IS READY FOR ANYTHING.

Tundra is available in a 4X2 and 4X4 Double Cab and 4X4 CrewMax options to make quick work of any weekday or weekend projects. While you're getting the job done, look good doing it too with a variety of unique upgrade packages that enhance your Tundra's appearance and performance capabilities.

INGENIOUS CAPABILITY

A TRUCK THAT WORKS HARD TO SERVE YOU.

For life on the go, Tundra has the capability to handle it all – and more. The spacious cabin includes a number of handy storage options, including available Split Fold-Up Rear Seats, Deep Armrest Storage and a Large Glove Box. Outside, the tough exterior bed makes loading, securing, and hauling your gear that much easier with available Tie-Down Cleats, available Deck Rail System, and Easy Lower and Lift Tailgate.

LUXURY AND TECH ON A LARGE SCALE

As striking as the 2020 Tundra is on the outside, the true reward comes once you are seated inside. Tundra perfectly blends functionality and comfort, with a spacious cabin that gives you and your crew plenty of room to stretch out, and premium materials and textures to create an upscale feel. Best of all, Tundra comes equipped with a host of intuitive technology to confidently and safely get you to any destination, and the ability to customize your drive to make the most out of every moment in your day.

APPLE CARPLAY™¹

Tundra offers Apple CarPlay™ support as a standard feature. Connect your compatible iPhone® and get directions, make calls, send and receive messages, and listen to your own playlist with your voice through Siri® or the steering wheel controls – all while maintaining focus on your drive.

ANDROID AUTO™¹

Android Auto™ comes standard on the 2020 Tundra. Android Auto automatically brings you useful information – like suggested destinations, upcoming appointments, and weather conditions – all organized into simple cards that appear just when they're needed.

A TRUCK YOU CAN COUNT ON

OVER 80 YEARS OF INNOVATION.

You can learn a lot in 80 years. Enough to master any subject. In our case, that subject is impactful full-sized pickup trucks. 80 years gave us the knowledge to design a truck that tows with unquestionable reliability. The wisdom to build a truck that can effortlessly deliver impressive payloads. The insight to create a truck that can help detect and stabilize trailer sway, even when towing up to 10,000 lb. And it gave us the expertise to create the 2020 Tundra, 80 years of innovation rolled into one impressive truck.

TOW/HAUL MODE

The available TOW/HAUL mode expands the use of lower gear ranges, helping prevent the transmission from awkwardly shifting or “hunting” for the right gear. Particularly useful while towing or hauling a heavy load, the system enhances acceleration, downhill engine braking, pulling power, and cruising comfort.

TRAPEZOIDAL FRAME SECTION

The trapezoidal rear section of Tundra's TripleTech™ frame allows the rear leaf springs to be positioned toe-out, where the front is mounted farther out than the rear. The result: The trapezoidal rear frame section and the toe-out rear leaf springs combined deliver superior lateral stability when cornering and especially while towing heavy loads.

AUTOMATIC LIMITED-SLIP DIFFERENTIAL

Auto LSD uses the rear brakes to simulate the action of a mechanical limited-slip differential and is much easier to maintain. With Auto LSD, Tundra automatically applies brake pressure to the powered wheel with limited-to-no traction without restricting engine power. This helps increase resistance at the slipping wheel, which in turn helps feed power to the wheel with grip.

POWERFUL BIG BRAKES

Tundra is equipped with enormous 13.9-in. front Brake Rotors and 4-piston calipers. When towing, Tundra's big rotors can help to provide the confidence that when you apply the brakes, the Tundra – and your trailer – will come safely to a stop.

THE PROOF IS THE POWER

GREAT POWER, GREAT EFFICIENCY.

The powerful i-FORCE 5.7L V8 engine features Dual Independent Variable Valve Timing with intelligence to optimize engine breathing for maximum power and efficiency. The Acoustic Control Induction System automatically adjusts intake runner length for optimal torque and performance. And to help handle the remarkable torque, we equipped it with a 6-speed automatic transmission, two-piece drive shaft and massive 10.5-in. ring gear. So whether you're towing, hauling, or just heading home, you can rest assured that Tundra carries a payload of capability.

Toyota
Safety
Sense

PEACE OF MIND INSIDE AND OUT

STANDARD TOYOTA SAFETY SENSE™ (TSS-P).²

No matter what roads you travel, Toyota Safety Sense™ is always there to keep you as safe as possible. It's an advanced suite of innovative safety features that comes standard on the 2020 Tundra, and it is designed to help protect drivers, passengers, pedestrians, and people in other vehicles from harm.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION³

Provides collision avoidance or collision mitigation support in speed ranges where frontal collisions are likely to occur. In certain conditions, the Pre-Collision System with Pedestrian Detection may also help to detect pedestrians and help prevent or mitigate a collision.

AUTOMATIC HIGH BEAMS⁴

Designed to detect oncoming and preceding vehicles' lights and depending upon the circumstances, Automatic High Beams can switch between high and low beams for you.

DYNAMIC RADAR CRUISE CONTROL⁵

Using forward sensing radar technology, the system can automatically adjust vehicle speed to help maintain a preset following distance between you and the vehicle directly in front of you.

LANE DEPARTURE ALERT⁶

Alerts you if you start to drift out of your lane when visible lane markings are detected.

WARRANTY

No deductibles. No transfer fees.

COMPREHENSIVE COVERAGE 3 YEARS OR 60,000 KM

This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

POWERTRAIN COMPONENTS 5 YEARS OR 100,000 KM

This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

MAJOR EMISSION CONTROL COMPONENTS 8 YEARS OR 130,000 KM

This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

CORROSION PERFORATION 5 YEARS/UNLIMITED DISTANCE

This warranty covers any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

DISCLAIMERS

(1) Driving while distracted can result in loss of vehicle control. Some features may be locked out while the vehicle is in gear. To reduce risk of accident while driving, exercise care when using the systems (even with the voice commands) and obey all local laws concerning use of the systems while driving (as some laws prohibit the use of electronic devices while operating a vehicle). Once the Connected Services by Toyota trial subscription expires, paid enrollment is required. Apple CarPlay, iPhone and Siri are trademarks of Apple Inc. Android Auto is a trademark of Google LLC. (2) Drivers should always be responsible for their own safe driving. Please always pay attention to your surroundings and drive safely. Depending on the conditions of roads, vehicles, weather, etc., the TSS systems may not work as intended. (3) The TSS Pre-Collision System is designed to help avoid or reduce the impact speed and damage in certain frontal collisions only. The Pedestrian Detection system is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. (4) Automatic High Beam system operates at speeds above approximately 34 km/h. Factors such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn it off. (5) Dynamic Radar Cruise Control is designed to assist the driver and is not a collision-avoidance system or a substitute for safe and attentive driving practices. System effectiveness depends on many factors such as weather, traffic and road conditions. (6) Lane Departure Alert is designed to read lane markers under certain conditions and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. (7) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors.

Details on the above features can be found in the Owner's Manual or contact your local Toyota Dealer.
